

Ndifo
SAFARI

SKY ABOVE, SAND BELOW, PEACE WITHIN

Ndifo Safari

is the realization of a
multi-generational
dream of sharing
natural & cultural
Tanzanian
wonders with
the world

The perfect safari destination

A native host with a lifetime of safari training

We are Tanzanian-owned & operated, and we are here to welcome you to our very special world in a very uniquely Tanzanian way.

Tanzania

The ultimate safari destination

Unbelievable exploration opportunities abound in every part of this spectacular country. Tanzania is the envy of the safari world with its breadth of geographical magnificence and cultural diversity.

The 21 national parks, reserves and conservations set it apart from any other safari location.

Whether Kilimanjaro, Ngorongoro Crater, Ruaha or Tarangire National Parks, or the legendary Serengeti, home to the annual Great Wildebeest Migration (the 2nd largest terrestrial mammal migration in the world), near limitless exploration is possible.

This is surely one of the greatest wonders of the natural world.

*Ndifo means “Footsteps”
in Steven’s native
language, Chagaa.*

We're the truly Tanzanian safari guide company

One of the only majority owned & operated by a native Tanzanian

Steven Ngowi was born on the southern slope of Kilimanjaro and spent his entire life close to the bush and the wildlife in it. From age 6, his grandfather, safari guide Steven Sr., raised him inside the safari life.

Both spent quite a bit of time with groups of professional British photographers who relied on Steven Sr.'s skill and expertise to help capture the images they sought. Steven's dream has always been to follow in his grandfather's footsteps, his ndifo.

Steven's whole life has been dedicated to safari. It is an integral part of who he is. As the owner and lead guide of Ndifo Safari, he brings this specific knowledge and connection to all his guests. As a native Tanza-

nian who loves and appreciates the wild world around him, his focus for Ndifo is conservation and preservation of the natural gifts given to our care. That ideal helps form the cornerstone mission of our company.

We have generations of deep knowledge about East-African wildlife and local culture to share with you.

Steven Sr. as a young guide

Ndifo Safari is serious about Photography

Surrounded by professional photographers since childhood, photography is an important focus for Steven and Ndifo. Ndifo jeeps are equipped to become photographer-friendly with removable windows & seats for greater access. Through his experience and trained photographer's eye, Steven knows what serious photographers are seeking and how to help find the perfect shot.

Ndifo offers private and group photography workshops of various lengths and price ranges. Open to any skill set. From learning how to use your camera to mastering advanced composition techniques, our workshops with award winning nature photographer Derek Nielsen will enhance your photography skills and certainly add to your safari experience.

*We offer a uniquely Tanzanian
perspective not available from
Western owners & operators.*

As native Tanzanians We offer a special welcome

We're eager to share our land's ancient cultures and hidden gems with you. No other safari company can show our treasures the way we can.

The wildlife safari experience is important, but we also want Ndifo guests to experience the Tanzania we know beyond the wild animals and scenery.

Conservation is everything to us. All that we do aims for us to leave no impact behind.

We will always work to protect this wildlife, their ecosystems and our culture.

A uniquely Tanzanian experience

Provided by a uniquely trained native

Ndifo Safari's owner and lead guide, Steven Ngowi, is one of the few guides in East Africa to have achieved the walking guide qualification. This means that our guests may choose to experience the feeling of walking among the animals outside the confines of a vehicle.

Achieving this qualification requires at least 18 months of specialized training in the use of firearms and over 120 hours of supervised experience in the field. Having a qualified safari walking guide adds something extra for our guests, if that is something they choose to experience.

This is our home.

We're eager to welcome you to our very special world in a very Tanzanian way.

Giving back is important to us

We share with our community

Our first project is the support of the Likamba Secondary School near Arusha. Here, 5 children sit at a desk designed for only 2 & almost 300 kids can be in a room designed for only 30.

The simple, but elegant solution is to provide concrete to build more classroom space. Ndifo provided bags of cement to assist with the construction of a new classroom. Our next level of support is to provide desks and other classroom necessities.

Photos by Angel Ngowi

Our second project is getting fresh water to another rural community near Arusha.

A large water pipe existed miles from this area with the fresh water the people so desperately needed. The local women walked miles with water buckets on their heads to get their household water each day or did without. The lack of funds was the only thing preventing access to this water.

So we've installed pipes to bring it to their homes & communal tanks, providing fresh water at no cost to them.
